# FLEURESSENCES

---

OCTOBER 2004 VOLUME TWO

## Personal Flower Essence

### *Combination Formula From Fleuressences*

**Fleuressences** strives to help each person individually work with their healing challenges. A **Personal Flower Essence Formula** can be created just for you and the particular imbalances that are present in your energy field.

We connect with your higher and elemental self, with your permission, and with the higher frequency realms to “read” your field. We have over 400 individual flower essences that you may require to bring about perfection in your field – approximately 35 are chosen. They are put into a 2 oz blue cobalt bottle, stabilized with **Red Shiso** and amplified with pyramids and quartz crystals.

We do not use computer generated inputs for our interpretation of each flower essence that is put into your formula because divine guidance often has special messages that augment your uniqueness and specific soul design.

As the formula is written up, an overall profile can be glimpsed and sometimes we summarize with comments that pertain to your healing or evolutionary growth.

A **Personal Formula** comes with a handwritten interpretation of the flower essences chosen for you. It also comes with a ½ oz. bottle of **Emergency Care**.

**Emergency Care** is like an energy field of protection, offering immunity from force fields we encounter on a daily basis, like microwaves, televisions, computers, high tension wires, cars, hair dryers, etc.

A **Personal Flower Essence Combination Formula** last approximately one month. Cost is \$70.00 for 2 oz **Personal Formula** and includes ½ oz **Emergency Care**.  
§

## Goldenrod

*Solidago sp.*

### *Flower of the Month*

The golden spires of **Goldenrod** are thick in the fields and along the roadsides here in Wisconsin. The powerful deva of **Goldenrod** is found in the **Co-creation Combination Formula** and often someone will test for it in the **Personal Flower Essence Formula**.

This flower is a powerful one for those in transformation. It supports our ability to be non-recordant to the judgments of others. It helps us not to worry about what society, family, or peers are thinking, regarding our own situation or transition. This is an excellent essence to take as we contemplate the moves or changes we must make to follow our heart's desire and divine calling.

Sometimes those around us tell us not to apply for that new job. Or perhaps we know deep in our heart that a

transformation must take place regarding a relationship and we hesitate because of all those around us who are “judging” us and our situation.

## Awakening Feet Foot Spray

### Galactic Grace Essences with Fragrance

We all love the feeling of autumn leaves under our feet. Think of the sensory activations that occur! A gorgeous spectrum of browns, reds, oranges and yellows activate our chakras through our eyes especially the grounding energy chakras 1, 2 and 3. The smells of the leaf litter activate memories and nostalgia. All of this sensory input moves us towards a more fully experienced interface of our energy field and the earth's energy field.

This sensory experience of fall weather calls us to get grounded. Our new flower essence aura spray – **Awakening Feet** is perfect for enhancing this process. It softens old energetic armoring and barriers around the feet and allows us to more fully upload the unlimited earth energy into our chakra column. The more complete expansion of the feet chakra is encouraged, for it is in the perfected human, as complex as the crown chakra.

This is a formula with fragrance and we were divinely guided to use **Sandalwood**. This essence offers to bathe the foot in both an ability to soften into awakening and at the same time feel completely protected. **Sago Palm** is added because it holds the blueprint for the enlightened foot chakra system. **Black Ebony** raises the wattage, and in this case it is in the form of bringing more light and energy to the foot chakra area.

**Golden Armor** protects the feet from any negative energy stored in the earth and **Corn** is important for grounding. **Temple Cloud Orchid** assists with bringing in codes and activations from the earth that we see clairvoyantly during energy healings. We have been calling these activations the "Diamond Codes." **Zucchini** brings stamina and strength to the feet on the physical level. **Bellwort** is for humility as we walk upon the earth. The semi-precious gem included in this exquisitely divined formula is **Garnet**. This deep ruby red frequency aligns one with the deeper dimensions of the earth and keeps us fully grounded.

We have found that our feet beg for a gentle misting everyday. If you spray one foot and not the other, you will discern the energetic difference immediately!!! 4 oz mister bottle is \$30.00. §

We would like to think that we don't care, but we do and **Goldenrod** will see to it that you maintain a golden spine of solidarity and confidence, no matter what others are thinking or saying.

**Goldenrod** is also helpful for abundance and prosperity. It erases long held patterns of thinking that have given us the illusion that there is not enough. It helps us to see in particular during the fall season the vastness of the earth's bounty.

**Goldenrod** is an excellent essence to slow down and ultimately stop mental stress and headache tensions. It is also good for emotional upsets. Energetically it attunes communicative lines with emotional meridians, said another way, it helps to re-align the axitonal lines that are off shoots of the main meridian lines.

This flower nurtures those that need their belly nurtured on emotional levels, so it is often good for digestive upsets that are emotionally based. It's good for someone that needs a warm golden blanket around them to make them feel safe and secure.

Divine guidance says **Goldenrod** works well with essence of lavender and bittersweet chocolate!!!! §

### ORCHID ESSENCE RELEASING KARMIC PATTERNS

*Masdevallia Flying Colours sp*

This gorgeous deep red orchid comes from the Living Tree Orchid Essences from Scotland. It releases karmic patterns which are held in the eighth chakra.

This essence helps us to let go of rigid belief patterns or merely parroted ideas held in this chakra area. It helps us to choose our words wisely before we speak. This is a landmark essence in our evolutionary process because I think that many do not believe that we can let go of karmic patterns.

We are now offering **Personal Orchid Essence Formulas**. We have over 60 orchids that we can check to see if you need energetically. Call or e-mail if you want more information. §

## Light Holder

### *Essential Combination Formula from Fleuressences*

The combination of essences in the **Light Holder Combination Formula** amp our energy field up to higher levels of frequency. It is like changing the wattage of a light bulb for 60 watts to 500 watts or more. This service of the flowers is something most of us do not realize is available.

Humanity is in the process of transforming into super human light beings, capable of things that we formerly thought impossible. This combination purifies and restores us and then pours powerful electronic energy through every cell in the body.

Some of the devas that hold their healing patterns for our energy field in the bottle come from the following flowers:

**Arrowhead** - strengthens our ability to master our emotions so we radiate the purity of God emotion and don't waste our precious emotional energy.

**Black Ebony** - maximized our ability to assimilate all forms of light and helps us to repel unhealthy rays as well, good for skin disorders. **Titan** - supports transformation process into the manifestation of superhuman light bodies.

**Bignonia** - powerful life force energy flowing through and renewing every cell in the body. This essence really expands the auric field – the change that we notice is that we become more unapologetically energetic in an exuberant and joyful way.

**White Mullien** – this is an Ascension flower. It brings us up the steps of Ascension as we are ready. It is like climbing rungs of a ladder, we take a moment to get attuned to that level (clearing another layer!) and then we are vibrating at a higher frequency of vibrational purity and ready to move up to the next rung.

I don't think I have ever had anyone test for this combination more than once. It really works and very quickly. One-half ounce is almost always enough and is \$18.00. A 2 ounce bottle is \$30. §

## GOLDENROD

*By Mary Oliver*

Goldenrod on roadsides, in fall fields, in rumpy bunches,  
saffron and orange and pale gold, in little towers,  
soft as mash, sneeze bringers and seed bearers,  
full of bees and yellow beads and perfect flowerlets  
and orange butterflies.

I don't suppose much notice comes of it,  
except for honey, and how it heartens  
the heart with its blank blaze.

I don't suppose anything loves it except,  
perhaps the rocky voids filled by its dumb dazzle.  
For myself, I was just passing by, when the wind flared  
and the blossoms rustled, and the glittering  
pandemonium leaned on me.

I was just minding my own business  
when I found myself on their straw hillsides,  
citron and butter colored and was happy, and why not?  
Are not the difficult labors of our lives full of dark hours?  
And what has consciousness come to anyway, so far,  
that is better than these light-filled bodies?  
All day on their airy backbones, they toss in the wind,  
they bend as though it was natural and godly to bend,  
they rise in a stiff sweetness, in the pure peace of giving  
One's gold away.
